UPTOWN, DOWNTOWN AND EVERYWHERE IN BETWEEN.

Offering up the most powerful 1.4L engine in its class, Spark is the fuel-efficient car that turns heads and turns new corners in providing confidence as well as control. The Spark is also designed for a confident drive every time you get behind the wheel. In addition to 2 standard air bags, antilock brakes and a high-strength steel safety cage, Spark offers a number of available safety features to help you stay safe on the road.

HELLO, TECHNOLOGY.

Spark might be compact, but when it comes to technology, this ride is filled with features. Spark is the first car in its class to offer Phone Integration Technology. With this intuitive bit of tech, you can interact with certain features of your smartphone using voice commands or the Chevrolet MyLink® touchscreen display in your car. It's smart, convenient and helps you keep your eyes on the road instead of your phone.
